

Vegan leather | Vapor - Micro Line Soft

Technical textile - Perspiration

KF 4050

Sweat absorption

A resistant, antibacterial textile that has a unique ability to absorb water from perspiration and humidity. In just sixty (60) seconds, the water on the surface of the textile penetrates the interior of the material, which has an excellent water retention capacity.

Evaporation time

The water contained in the textile evaporates in a few minutes, to keep all the material dry.
